SUMMARY

Software engineer with 6 years of experience building backend systems and web applications. Comfortable working across the full stack. Enjoys solving complex problems and building reliable software.

SKILLS

Python, JavaScript, Node.js, React, PostgreSQL, MySQL, REST APIs, Git, Linux, Docker, AWS (EC2, S3), CI/CD, Agile

EXPERIENCE

Backend Engineer - TechFlow Inc

Mar 2021 - Present

- Built and maintained REST APIs used by over 50,000 active users
- Worked on migrating parts of the monolithic application to smaller services
- Improved database query performance by optimizing indexes and rewriting slow queries, cutting average response time by 35%
- Set up automated testing pipelines using GitHub Actions
- Helped onboard 3 new team members and participated in code reviews

Junior Developer - Webcraft Solutions

Jul 2018 - Feb 2021

- Developed customer-facing features for an e-commerce platform using React and Node.js
- Integrated third-party payment APIs including Stripe and PayPal
- Maintained MySQL databases and wrote migration scripts
- Fixed bugs and resolved support tickets for production systems

EDUCATION

B.S. Computer Science - University of Texas at Austin

Graduated 2018

CERTIFICATIONS

- AWS Certified Developer - Associate (2022)
- Docker Certified Associate (2023)

PROJECTS

DevTrack - Open Source Project Management CLI

Built a command-line tool for tracking development tasks. 200+ GitHub stars. Written in Python with PostgreSQL backend.
